

25m HDMI Extender over cat5e/6

The HDMI extender uses only one CAT-5E/6 cable to extend the HDTV display in resolutions of 4KX2K and 1080P, max up to 25m.

Features:

1. No set up needed simply plug & play.
2. CAT-5e/6 cable substitutes using a HDMI cable to achieve longer transmission distance.
3. Follow the standard of IEEE-568B.
4. Transmission distance can be up to 25 meters for 1080p using CAT-6 Cable.
5. Signaling rated up to 2.5Gbps in support of 1080p display.
6. HDCP compliant.
7. No power supply needed.

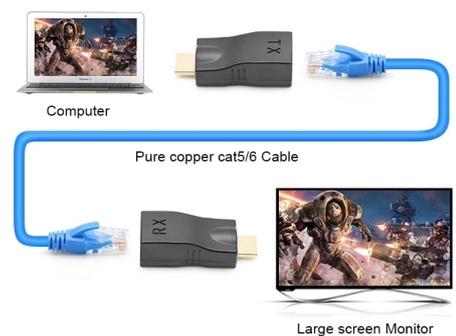

Plug and Play

Connection and Operation:

1. Plug the fixed HDMI connector of the sender into the HDMI input source.
2. Connect single CAT-5e/6 cable to both the output of the transmitter and input of the receiver.
3. Plug the fixed HDMI connector of the receiver into the HDMI display.
